Good morning Ed,

Please find below a statement you can use with a list of alternatives. We've run this by BEAD and it accurately reflects the 2020 Benefits memo (attached, in word as requested).

Ex. 5 Deliberative Process (DP)

I'm also attaching the proposed interim decision document (in word and pdf) as well as the latest version of the Final Rule (in word) as requested.

Please let us know if you need anything else.

Thank you,
Jaclyn

Subject: Fwd: URGENT - Follow-up on Michal's chlorpyrifos interviews

Nikhil,

Would you mind sending us a sentence or two on cpfos alternatives in response to Ed's below request?- generically OPs, Pyrethroids, etc., but that for some specific target pests in certain crops, we understand there is less availability of alternatives. (I'm on with EISD right now, and can't fact check against any of our documents for the fuller list).

Thanks!
Dana

In the Q&A we mention Chlorpyrifos alternatives. Can I get a listing of those? Also, tomorrow if someone wants to send me the final word documents of all the materials thus far and the decision document in the morning that would be great. Been doing some reading tonight and will pick up in the morning.

Cheryl,

Can you help gather some of this for us to share with Dino?

Let me know if you need to talk it through or if you need any clarity on any of this.

Thanks,
Lindsay

Michal's notes:

Re—registration timeline

List of studies that show neurodevelopmental effects and brief description

Quotes from FIFRA SAP - I think some of that is in the rule itself

List of key studies related to enzyme inhibition and acetylcholinesterase (sp)
